# STRATEGIC VISION

## 1.- DURATION

### 1.1.- END DATE OF THE CURRENT ADMINISTRATION

The current administration will hold office until May 2027.

### 1.2.- END DATE OF THE ACTION PLAN PERIOD

31 March 2027.

## 2.- FOREWORD

Generalitat Valenciana is part of the Open Government Partnership (OGP) since 2022. Being a member of this organisation implies the development and implementation of action plans consisting of a series of Open Government commitments drawn up through a co-creation process involving civil society.

The 1st Action Plan of the Comunitat Valenciana for the Open Government Partnership was drafted between June and November 2022, and subsequently implemented and assessed. This 1st Action Plan sought to bring about a change in culture with regard to the manner in which institutions interact with citizens, adopting a culture based on greater proximity and a reinforcement of public values.

The 1st Action Plan included 3 commitments:

- Open Community: Networks and tools to promote public integrity at the local level of the Comunitat Valenciana and make the good municipal practices of open government visible.
- Innovation and culture of open government: Train, educate and build a participatory culture within the educational community, strengthening networks and links between civil society and the public administration.
- Inclusive transparency and the right to understand: Improving the usability and communication of the administration for real and effective accountability.

This 2nd Action Plan seeks to focus on 3 themes (Transparency and the right to access public information, Civic Participation, and Democratic Quality), both from the perspective of the Administration as the body responsible for creating the mechanisms to enable more open governance and a more consolidated democracy, and the role of civil society as the party demanding and consuming transparency and civic participation.

To this end, the 2nd Action Plan establishes 5 commitments to be implemented between 2024 and 2027.

### 3.- INTRODUCTION LETTER

#### **Open Government Partnership**

Maria Baron, Executive Director

Valencia, 22 March 2024

Dear Ms Baron:

I am pleased to send you the 2nd Open Government Plan of the Comunitat Valenciana for the 2024-2027 period.

With almost 5 million inhabitants, the Comunitat Valenciana is one of the 17 autonomous communities that make up Spain.

Our region's commitment to Open Government dates back a long way. In 2015, our autonomous community passed Law 2/2015, of 2 April, on Transparency, Good Governance and Civic Participation, which provided the Comunitat Valenciana with the technical, legal and administrative instruments necessary to satisfy the right of citizens to access public information, adapting the basic Spanish regulations and establishing a more advanced framework in the areas of transparency and good governance.

Since then we have continued to further develop Open Government within our public institutions and administrations as well as in civil society, making Open Government an essential instrument in the development of our self-government and in building a more prosperous and socially advanced society.

In 2022 we drafted and approved the 1st Action Plan of the Comunitat Valenciana for the Open Government Partnership, a plan that sought to bring about a change in culture with regard to the manner in which institutions interact with citizens, adopting a culture based on greater proximity and a reinforcement of public values.

Having finalised the implementation and assessment of this 1st Action Plan, we now submit this 2nd Action Plan that seeks to focus on 3 themes (Transparency and the right to access public information, Civic Participation, and Democratic Quality), both from the perspective of the Administration as the body responsible for creating the mechanisms to enable more open governance and a more consolidated democracy, and the role of civil society as the party demanding and consuming transparency and civic participation. To this end, the 2nd Action Plan establishes 5 commitments to be implemented between 2024 and 2027.

This 2nd Action Plan has been designed according to the principles of the Open Government Partnership, which are also the principles that we will use in its implementation.

We are convinced that this 2nd Action Plan will continue to contribute to the development of Open Government in our region. A goal we are willing to share with other regions around the world.

## 4.- OPEN GOVERNMENT CHALLENGES, OPPORTUNITIES AND STRATEGIC VISION

The OECD Council Recommendation on Open Government defines open government as “a culture of governance that promotes the principles of transparency, integrity, accountability and stakeholder participation in support of democracy and inclusive growth”.

Open Government is also present in the United Nations 2030 Agenda for Sustainable Development. The clearest reference to Open Government relates to SDG 16 Peace, Justice and Strong Institutions, and specifically to the following targets:

- Target 16.5: Substantially reduce corruption and bribery in all their forms.
- Target 16.6: Develop effective, accountable and transparent institutions at all levels.
- Target 16.7: Ensure responsive, inclusive, participatory and representative decision-making at all levels.
- Target 16.8: Broaden and strengthen the participation of developing countries in the institutions of global governance.

Thus, Open Government can be considered an element that contributes to shaping the 2030 Agenda and the Sustainable Development Goals, incorporating a fourth core concept linked to governance to the three traditional core concepts of sustainable development (social development, economic development and environmental protection).

The Government of the Generalitat Valenciana and the other public and social stakeholders involved in this project want to focus this 2nd Action Plan on this vision. Specifically, the focus will be placed on 3 major dimensions of Open Government:

- **TRANSPARENCY:** On the understanding that public institutions and other agents that receive public funding must open their doors and windows to citizens so that they can access all relevant information on their management and, furthermore, do so in a way that is easily accessible and comprehensible.
- **PUBLIC PARTICIPATION:** On the understanding that institutions should invite citizens to participate in public discussions on issues of major social interest, attempting to the extent possible to include the contributions received and providing sufficient reasoning when this is not possible.
- **DEMOCRATIC QUALITY:** On the understanding that institutions must strengthen the mechanisms that contribute to advancing and consolidating the democratic quality of a society, reinforcing elements that are crucial in guaranteeing and exercising democracy, such as the institutions of self-government and the rights and freedoms of citizens, as well as the awareness of these institutions and rights.

In addition to these 3 sector-specific dimensions, this 2nd Open Government Plan aims to focus on the concept of **PARTNERSHIPS**, in line with what SDG 17 teaches us. Partnerships thus become an accelerator of the changes that are essential to bring public institutions and civil society organisations closer to citizens.

#### 4.1.- WHAT IS THE LONG-TERM VISION FOR OPEN GOVERNMENT IN YOUR CONTEXT AND JURISDICTION?

Our long-term vision for Open Government includes 3 key elements:

- Firstly, Open Government as the RIGHT to access public information and data and to participate in decision-making.
- Secondly, Open Government as a TRANSVERSAL PRINCIPLE that should permeate all aspects of public management. In this regard, it is necessary to secure the commitment of institutions - and also of other civil society stakeholders - to advance towards a more real and effective Open Government.
- Finally, the different elements of Open Government as MANAGEMENT AREAS that are fully embedded in the organisational culture and management structure (planning, implementation, assessment) of organisations, with management being exercised in an effective and efficient manner.

#### 4.2.- WHAT ARE THE ACHIEVEMENTS IN OPEN GOVERNMENT TO DATE (FOR EXAMPLE, RECENT REFORMS)?

Law 1/2022, of 13 April, on Transparency and Good Governance of the Comunitat Valenciana.

Law 4/2023, of 13 April, on Civic Participation and the Promotion of Associations of the Comunitat Valenciana.

#### 4.3.- WHAT ARE THE CURRENT CHALLENGES/AREAS FOR IMPROVEMENT IN OPEN GOVERNMENT THAT THE JURISDICTION WISHES TO TACKLE?

The main challenges are as follows:

##### IN THE FIELD OF TRANSPARENCY

- Generate more accessible and appropriate active advertising content for public consumption, making the right to access public information an effective right. To this end, it is essential to address citizens in their language.
- Assist smaller local authorities so that they are able to manage transparency and provide the information they are required to provide under current legislation.
- Increase the transparency of social organisations receiving public sector funding.

##### IN THE FIELD OF CIVIC PARTICIPATION

- Improve active listening and early identification of the needs and expectations of citizens.
- Achieve greater participation in the participatory processes that are developed.
- Design innovative and more efficient tools and participatory processes that add value to civic participation.
- Properly close participatory processes, reporting back to society the results of these processes and the impact generated by this participation in relation to the issue being debated or reflected upon.

##### IN THE FIELD OF DEMOCRATIC QUALITY

- Strengthen the democratic quality of our society.
- Consolidate the mechanisms and instruments that guarantee it.
- Promote and disseminate the institutions of self-government and the rights and freedoms of citizens, as essential parts of the democratic quality of a society.

#### 4.4.- WHAT ARE THE MEDIUM-TERM OPEN GOVERNMENT GOALS THAT THE GOVERNMENT WANTS TO ACHIEVE?

Those indicated in point 4.3.

#### 4.5.- HOW DOES THIS ACTION PLAN CONTRIBUTE TO ACHIEVE THE OPEN GOVERNMENT STRATEGIC VISION?

We can highlight 4 main areas of contribution:

- The Plan addresses the major challenges associated with the Open Government strategic vision shared by the Generalitat Valenciana, the 3 provincial councils, the city councils of the 3 capital cities and the Valencian Federation of Municipalities and Provinces.
- The Plan includes not only the demands of civil society but also their commitment to become organisations fully committed to transparency.
- There is a special focus on supporting institutions and stakeholders that have fewer resources at their disposal.
- Emphasis is placed on the importance of collaboration as a transversal instrument for the 5 commitments defined.

#### 4.6.- HOW DOES THE OPEN GOVERNMENT STRATEGIC VISION CONTRIBUTE TO THE ACCOMPLISHMENT OF THE CURRENT ADMINISTRATION'S OVERALL POLICY GOALS?

As stated above, it is impossible to speak of sustainable development if it is not based on solid institutions and agents, with high management capacity and geared to the needs and expectations of their stakeholders.

Nor is it possible to talk about sustainable development if decisions are taken from the top down. It is essential to take into account the voice of citizens and relevant territorial agents in order to generate and implement high-impact solutions to problems that are increasingly complex and interrelated. Moreover, civic and social participation brings the value of consensus and involvement, transforming participation into collaboration.

Open Government must therefore play an essential part in the policies of any public administration and also of any social or private agents that want to address the needs and expectations of their stakeholders and have solid strategies, with social backing and that generate maximum public value.

## 5.- COLLABORATION AND COORDINATION IN THE LOCAL OPEN GOVERNMENT STRATEGIC VISION AND OGP ACTION PLAN

### 5.1.- WHICH ARE THE LEAD INSTITUTIONS RESPONSIBLE FOR THE IMPLEMENTATION OF THE OGP ACTION PLAN?

Final responsibility for the implementation of the action plan will lie with the Generalitat Valenciana.

Each of the established commitments includes a series of public and private entities sharing responsibility for the success of the commitment (comprehensive information can be found in Part II in the description of each commitment).

### 5.2.- WHAT KIND OF INSTITUTIONAL ARRANGEMENTS ARE IN PLACE TO COORDINATE BETWEEN GOVERNMENT AGENCIES AND DEPARTMENTS TO IMPLEMENT THE OGP ACTION PLAN?

There exist different coordination and collaboration instruments that will be made available to the Plan:

- Within the Generalitat, there is a Technical Coordination Committee on Transparency.
- There is inter-institutional collaboration with the 3 provincial councils and the Valencian Federation of Municipalities and Provinces (FVMP) through the Valencian Open Government Partnership, the aim of which is to make joint and collaborative progress in this area.
- At an institutional level, there is also an Open Government Municipal Network of the Comunitat Valenciana, to which local entities can apply for membership.
- At the civil society level, collaboration agreements have been in place since 2016 with public universities to promote Open Government research and training activities.
- There is also the Civic Participation Council of the Comunitat Valenciana, which is the administration's consultative body that the Generalitat uses to promote meetings between the Generalitat, civil society and citizens. The Council is constituted as a genuine space for discussion and collaboration between all the institutions and civic organisations of the Comunitat Valenciana, so that they can discuss and exchange views on the design of the Generalitat's public policies.

### 5.3.- WHAT KIND OF SPACES HAVE YOU USED OR CREATED TO ENABLE THE COLLABORATION BETWEEN GOVERNMENT AND CIVIL SOCIETY IN THE CO-CREATION AND IMPLEMENTATION OF THIS ACTION PLAN?

The participatory process has taken advantage of the coordination and collaboration instruments explained in section 5.2., with special emphasis on the Civic Participation Council of the Comunitat Valenciana.

In addition to direct invitations to the agents that are part of these instruments, an open call has been made via <https://participem.gva.es> (Generalitat Valenciana Participation Portal) and <https://participem.gva.es/es/open-government-partnership>

#### 5.4.- WHAT MEASURES DID YOU TAKE TO ENSURE DIVERSITY OF REPRESENTATION (INCLUDING VULNERABLE OR MARGINALISED POPULATIONS) IN THESE SPACES?

The participatory process has mainly revolved around the Civic Participation Council of the Comunitat Valenciana. The most relevant associations of the Comunitat Valenciana are present in this Council, including those representing vulnerable or marginalised groups, as can be seen in section 7 of this document, which lists the agents that have taken part in the different phases of the process.

In addition, representatives from universities, social entities and other public administrations, mainly the provincial councils and the city councils of the 3 capital cities of the Comunitat Valenciana, also took part.

#### 5.5.- WHO PARTICIPATED IN THESE SPACES? MENTION THE TYPE OF DIFFERENT GROUPS THAT PARTICIPATED IN THE CO-CREATION PROCESS

The participants can be divided into 3 main groups:

- Regional Government Departments.
- Other institutions, bodies and councils: local administrations and universities of the Comunitat Valenciana.
- Civic organisations:
  - Neighbourhood associations: Federations, confederations and associations for the defence of neighbourhood rights.
  - Regional houses and federations of associations from other autonomous communities of the Comunitat Valenciana.
  - Volunteer charity organisations.
  - Coordinators and organisations that defend women's rights in the public and private spheres.
  - Coordinators and organisations that defend the rights of LGTBI groups and sexual diversity.
  - Platforms and organisations that defend the land and the environment, and cultural heritage.
  - Organisations and associations that defend and promote the rights of people with functional diversity.
  - Organisations and associations that provide assistance to people with health problems and work to improve the quality of life of those affected and their family and social environment.
  - Entities and organisations that defend the rights of migrants, refugees or ethnic minorities.
  - Faith-based civic bodies and organisations.
  - Civic organisations belonging to other spheres of action.

#### 5.6.- HOW MANY GROUPS PARTICIPATED IN THESE SPACES?

Regional Government Directorates-General: 6

Other institutions, bodies and councils: 16.

Civic organisations: 39 organisations (represented by 59 different persons).  
10 individuals.

TOTAL: 71 organisations.

## 5.7.- HOW MANY MEETINGS WERE HELD IN THE CO-CREATION PROCESS?

A total of:

- 2 participatory group dynamics:
  - ❑ A first meeting, held on 27 November in Valencia, to define and prioritise commitments. Prior to this meeting, an on-line form was made available for the submission of commitments.
  - ❑ A second meeting, held on 11 December in Valencia, to address the definition and specification of commitments in terms of objectives, activities, milestones, participating entities and monitoring and assessment indicators.
- 8 bilateral meetings with stakeholders to define their involvement.

## 5.8.- HOW WILL GOVERNMENT AND NON-GOVERNMENTAL STAKEHOLDERS CONTINUE TO COLLABORATE THROUGH THE IMPLEMENTATION OF THE ACTION PLAN?

The following mechanisms for promotion, coordination and participation will be established:

- Creation of a PROJECT PROMOTION GROUP, in which the Directorate-General for Transparency and Participation, the 3 provincial councils and the Valencian Federation of Municipalities and Provinces will be represented. This Project Promotion Group will hold regular bi-annual meetings.
- Creation of WORKING GROUPS FOR THE IMPLEMENTATION OF THE COMMITMENTS, with the participation of all the agents involved (see details in the description of each of the commitments). Each Working Group will define its own schedule of meetings.
- Creation of an OPEN MONITORING AND ASSESSMENT FORUM, to which all agents who have taken or will take part in the process will be invited to participate. This Forum will hold regular annual meetings.

## 6.- MONITORING THE OGP ACTION PLAN

### 6.1.- PLEASE DESCRIBE THE INDEPENDENT MONITORING BODY YOU HAVE IDENTIFIED FOR THIS PLAN

### 6.2.- PROVIDE THE CONTACT DETAILS FOR THE INDEPENDENT MONITORING BODY

### 6.3.- WHAT TYPES OF ACTIVITIES WILL YOU HAVE IN PLACE TO DISCUSS PROGRESS ON COMMITMENTS WITH STAKEHOLDERS?

The project will be subject to an interim assessment on 31 December 2025 and a final assessment at the end of the project.

Internal assessment processes will also be conducted at the meetings of the Open Monitoring and Assessment Forum (1 process per year).

### 6.4.- HOW WILL YOU REGULARLY CHECK IN ON PROGRESS WITH IMPLEMENTING AGENCIES?

Each of the Working Groups for the Implementation of the Commitments will prepare a periodic report on the monitoring of the implementation of its commitment and on the impact achieved. This report will be analysed in the meetings of the Project Promotion Group.

### 6.5.- HOW WILL YOU SHARE THE RESULTS OF YOUR MONITORING EFFORTS WITH THE PUBLIC?

An annual report will be drawn up on the activities undertaken.

These reports, together with the interim and final assessment reports, will be published on the project website <https://gvaoberta.gva.es/es/alianca-govern-obert>

In addition, annual reports and assessment reports will be disseminated through social media.

All these documents will be prepared according to clear communication criteria.

## PROBLEM TO BE SOLVED

- Achieve greater awareness of the TEP application and greater use of it by the associative network of the Comunitat Valenciana, so that it can be used as a tool for accountability with regard to its associates and other stakeholders, especially in relation to those organisations that do not have the means to do so.
- Improve the features of the TEP platform in accordance with the needs detected in the associative network of the Comunitat Valenciana, so that any subject bound by the transparency regulations can comply with their active advertising obligations more homogeneously.
- Ensure that associations publish reports on the activities they engage in with subsidies from the Generalitat and other public administrations.
- Improve access to information relating to associations of the Comunitat Valenciana.

## CURRENT SITUATION

There is general agreement on the problem that needs to be solved, although no quantitative data on the problem is available.

## ACTION TO BE TAKEN

The implementation of the commitment will promote the culture and practice of transparency in the associative network of the Comunitat Valenciana.

The following outputs are expected:

- Improvement of the TEP application: improvements in functionality, interoperability and addition of new features.
- Connection of the TEP platform with other applications that enable the automatic publication of useful information for the associative network: Registration of Contracts, Registration of Stakeholders...
- Unified Activity Report template that facilitates disclosure of the activities subsidised by the Generalitat and other public administrations.
- Dissemination and training material related to the TEP platform.
- Search engine for data on associations of the Comunitat Valenciana.

## HOW WILL THE COMMITMENT CONTRIBUTE TO SOLVING THE PUBLIC PROBLEM?

- Development of the outputs indicated in the previous point.
- Making them available for use by the associative network of the Comunitat Valenciana.

WHAT LONG-TERM GOAL AS IDENTIFIED IN YOUR OPEN GOVERNMENT STRATEGIC VISION DOES THIS COMMITMENT RELATE TO?

- Open Government as the RIGHT to access public information and data and to participate in decision-making.
- Open Government as a TRANSVERSAL PRINCIPLE that should permeate all aspects of public management.
- The different elements of Open Government as MANAGEMENT AREAS that are fully embedded in the organisational culture and management structure (planning, implementation, assessment) of organisations, with management being exercised in an effective and efficient manner.

PRIMARY POLICY AREA

Right to information.

PRIMARY SECTOR

Private sector.

WHAT OGP VALUE IS THIS COMMITMENT RELEVANT TO?

- Access to information.
- Public accountability.
- Technology and innovation for transparency and accountability.

RESOURCES REQUIRED TO IMPLEMENT THIS COMMITMENT

Budget (required budget allocation and currency)	76.850 €
Staff (number of staff required to implement the commitment)	A part-time staff of approximately 10 persons will be required
Time (months needed to implement the commitment)	32 months
Other resources required (please describe)	Not applicable

## ARE THE RESOURCES NEEDED TO ACHIEVE THIS COMMITMENT ALREADY SECURED?

Yes.

## MONITORING AND ASSESSMENT INDICATORS

- Number of associations participating in meetings to disseminate the new functionalities.
- Number of activity reports published on the TEP platform in accordance with the new format.
- Number of applications with which it interoperates.
- Creation and publication of a search engine on associations of the Comunitat Valenciana: yes/no.

## PROBLEM TO BE SOLVED

Mainstream the creation of active advertising content with clear communication criteria at the local level of the Comunitat Valenciana, such that:

- The criteria for the publication of information are homogenised.
- Each city council can conduct its own Open Government diagnosis and facilitate the publication of more content and, therefore, ensure compliance by those required to publish content in accordance with the prevailing transparency regulations.

## CURRENT SITUATION

There is general agreement on the problem that needs to be solved, although no quantitative data on the problem is available.

## ACTION TO BE TAKEN

The implementation of the commitment will mainstream the creation of active advertising content with clear communication criteria at the local level in Comunitat Valenciana.

The following outputs are expected:

- Self-assessment questionnaire so that city councils can conduct their own transparency diagnosis, including therein the publication of active advertising content with clear communication criteria.
- A clear communication recommendations guide to improve the information published homogeneously. This guide will include useful templates to help improve the comprehensibility of published information.
